C117- CONTENTS OF ISO 50001:2018 EnMS SYSTEM AWARENESS AND INTERNAL AUDITOR TRAINING PPT PRESENTATIONS TRAINING KIT

EnMS System Awareness and Internal Auditor Training Presentation kit (Editable)

Sr. No.	The entire PPT presentation kit has 8 main files as below		Document of Details
	PPT Presentation		**No. of Slides**
1.	1.	Overview of ISO 50001:2018 EnMS System	31
	2.	Energy Objectives, Targets , and Energy Management Plan	11
	3.	ISO 50001:2018 Requirements	67
	4.	Documented Information	20
	5.	ISO 50001:2018 Internal audit records	11
	6.	Steps for ISO 50001:2018 Installation and certification	30
	7.	Terms and Definitions	12
	Total no. of slides ➜		**182**
2.	A trainer's guide and hand outs and editable form to understand ISO 50001 subject well in 6 chapters		**Approx. 135 Pages in Ms. word**
3.	Work-shops and case study to evaluate effectiveness of training.		**02 workshops and 01 case studies**
4.	Audit checklist		**Approx. 500 audit questions**
5.	Audit forms		**03 file in Ms. word**
6.	Sample ISO 50001 system certified Internal Auditor training certificate copy to be given to participant after solving workshops and case study as per sample		**01 file in Ms. word**

Part - 1. Presentation: -

Under this directory further files are made in power point presentation as per the chapter listed below.

- Topic wise power point presentation in 11 modules as listed below.

1. Overview of ISO 50001:2018

It covers Overview of ISO 50001:2018, benefits and summary of overall system and change process for ISO 50001:2018.

2. Energy Objectives, Targets , and Energy Management Plan

It covers Energy Objectives, Targets, and Energy Management Plan.

3. ISO 50001:2018 requirements

It covers ISO 50001:2018 specifications, requirements, it gives explanation for many new concepts and given in plain english for easy understanding of revised changes given in ISO 50001:2018 and many places clarifications are given.

4. Documented Information

It covers documented information for ISO 50001.

5. ISO 50001:2018 Internal audit records

It covers internal audit records for ISO 50001:2018.

6. Steps for ISO 50001:2018 Installation

It covers steps to carry out installation on ISO 50001:2018.

7. Terms and Definitions

It covers terms and conditions for ISO 50001:2018.

Part - 2. A trainer's guide and handouts in editable form to understand ISO 50001:2018 subject well:-

This topic covers write up for the ready reference to the participant for understanding and reading the subject to get in depth knowledge on the subject

It is given in word. You may also use it for further reading and circulations within audience

Chapter No.	Section
1.	Introduction to ISO 50001:2018 Energy Management System
2.	ISO 50001 Requirements of Energy Management System
3.	Energy Management System Audit Process
4.	ISO 50001:2018 Documented Information
5.	Steps for ISO 50001:2018 EnMS Installation & Certification
6.	ISO 50001:2018 Internal Audit Records

Part – 3. Work-shops and Case studies to evaluate effectiveness of training 02 workshops and 01 case study:-

This topic covers workshops and case study to evaluate effectiveness of training. Each participant needs to solve this workshops and case study after undergoing the training. After successful completion of workshop and case studies the ISO 50001:2018.

Part - 4. Energy management system audit checklist:-

The ready to use ISO 50001:2018 audit questions as below.

1. ISO 50001:2018 Clause wise questions
2. ISO 50001:2018 Department wise audit questions

Part - 5. Energy management system audit forms:-

This topic covers audit forms to carry our internal audit of ISO 50001:2018 and 3 forms are given.

Part - 6. Sample Copy of ISO 50001:2018 Internal Auditor Certificate:-

Sample ISO 50001:2018 Internal Auditor training certificate copy. This sample certificate helps to create training certificate for participants after completing the ISO 50001:2018 Internal Auditor training using our training kit.

Chapter-3.0 USER FUNCTION

3.1 Hardware and Software Requirements

A. Hardware:-

- Our document kit can be better performed with the help of P3 and above computers with a minimum of 10 GB hard disk space.

- For better visual impact of the PowerPoint slides, you may keep the setting of colour image at high colour.

B. Software:-

- Documents are written in MS-Office 2003 and Windows XP programs. You are, therefore, required to have MS-Office 2003 or above versions with Windows XP

3.2 Features of Document kit:-

- The kit contains all necessary documents as listed above and complies with the requirements of system standards.
- The documents are written in easy to understand English language.
- It will save much time in typing and preparing your documents at your own.
- The kit is user-friendly to adopt and easy to learn.
- The kit content is developed under the guidance of experienced experts.
- The kit provides a model of the Management system that is simple and free from excessive paperwork.

SAMPLE SLIDE

ISO 50001:2018 – Awareness and Internal Auditor Training

PART – 2

Structure of Standards as per ISO 50001:2018

9 Performance evaluation
- Monitoring, measurement, analysis and evaluation
- Internal audit
- Management review

10 Improvement
- Nonconformity and corrective action
- Continual improvement

8 Operation
- Operational planning and control
- Design
- Procurement

CONTINUAL TRADE LINKAGES

4 Context of the organization
- Understanding the organization and its context
- Understanding the needs and expectations of interested parties
- Determining the scope of the energy management system
- Energy management system

7 Support
- Resources
- Competence
- Awareness
- Communication
- Documented information

6 Planning
- Actions to address risks and opportunities
- Objectives, energy targets and planning to achieve them
- Energy review
- Energy performance indicators
- Energy baseline
- Planning for collection of energy data

5 Leadership
- Leadership and commitment
- Energy policy
- Organizational roles, responsibilities and authorities

Energy Management Action Plan

➢ Establish, document and maintain energy management plan(EnMP) for achieving energy objectives of the organization.

1. **EnMP should include :**

    • Responsibilities and authorities at relevant levels for achieving the objectives

    • Means and time scale to be achieved (Plan)

2. **EnMP should be:**

    • Reviewed at regular and planned interval, and

    • Updated.

In EnMP, consider: What? Who? Why? When? Where? How?

# Energy Management System Standard PDCA Cycle

ISO 50001:2018 Standard Overview

0   Introduction

1   Scope

2   Normative references

3   Terms and definitions

4   Context of organization

5   Leadership

6   Planning

7   Support

8   Operation

9   Performance evaluation

10 Improvement

Comparison of Document Requirements

In ISO 50001:2018, a common term "Documented information" has been used. This term is used for all types of documents and all document and records requirements.

1. ISO 50001:2011 used specific terminologies, such as "document" or "documented procedures", "energy manual" or "energy management plan". All these terms have been changed in ISO 50001:2018 to only one term, "maintain documented information".

2. ISO 50001:2011 used the term "records" to denote the documents needed to provide evidence of conformity with requirements. In ISO 50001:2018 it has been changed to "retain documented information".

Thus, based on identified risk and action decided and other planned activity(ies) the organization needs to decide a requirement to "maintain" documented information. It does not exclude the possibility that the organization might also need to "retain" that same documented information for a particular purpose for the revised standard.

In ISO 50001:2018, documentation requirements are reduced, and it is required only at few places. In this revised standard, energy manual and procedures and energy plan, etc., are not specified as mandatory requirements; but as a good practice companies use to make energy manual with energy policy and objectives at macro level to describe how other requirements are complied.

Requirements for Installing Energy Management System

ISO 50001:2018 Energy Management System cannot be purchased at any price. It has to be earned by real hard labor and total transformation at all levels in the organization. Requirements for installing an energy management system are :

- Strong commitment of CEO
- Ability to allocate resources, including
  - Manpower
  - Managerial time, including CEO's
  - Finance for expert's assistance
- Good labor relations
- Patience
- Company's energy policy
- Standardization of activities
- Decentralization of energy functions
- Training of personnel and building competence

- Customer focus (external and internal)
- Utilization of intellect of workers and supervisors
- Reduced supervision and promotion of self-inspection
- Planned continuous improvement
- Environment of trust and team work
- Promoting use of risk-based thinking to determine risk and opportunities and plan actions
- Institutionalized audit.
