### B. Documented information package:

Our documentation kit comprises sample documents required for FSSC 22000 (Version 6) certification as listed below. **All documents are in MS Word / Excel format and you can edit them.** You can make changes as per your company's needs and **within few days your entire documents** with all necessary system requirements can become ready. In the FSSC 22000 (Version 6), at few places, documented information are required. But for making the system better, we have provided many editable templates from which a user can select and make some minor changes to make own system. Now, FSSC 22000 (Version 6) standard does not require manual, procedures, etc. It requires two types of documented information as listed below:

1. **Maintain documented information (Scope, Food Safety Manual, etc.)**
2. **Retain documented information (Forms / Templates)**

Under the given directories, further files are provided in MS word/excel document as per the details given below. All the documents are related to food manufacturing / process industry.

### 1. Food Safety Manual (11 Chapters and 4 Annexure):

This is a sample copy of system manual which gives clause-wise details of how FSSC 22000 (Version 6) system is implemented. It covers the food safety management system, sample food safety policy, objectives, scope, organization structure as well as how each requirement from clause no. 4 to 11 of FSSC 22000 (Version 6) is implemented at macro level in the organization. The manual covers FSSC 22000 (Version 6) documents for tier-1 of documented information. It has total 11 chapters covering company profile, amendment sheet, index, and clause-wise details on how FSSC 22000 (Version 6) system is implemented in an organization.
