Chapter-2.0 ABOUT COMPANY

Certification Consultancy is a progressive company promoted by a group of qualified engineers and management graduates having rich experience of more than 30 years in ISO and management area consultancy and online training as well. The company serves the global customers through on-site and off-site modes of service delivery systems. We offer a full range of consulting services geared towards helping all types of organizations to achieve competitiveness, certifications and compliance to international standards and regulations. So far, we have **more than 4500 clients in more than 101 countries. Our ready-made editable documents kit helps the client in making their documents with ease and helps them comply with the related ISO standard faster.**

1. Our promoters and engineers have experience in providing management training, ISO series consultancy for **more than 4500 companies** globally. We have clients **in more than 101 countries.**
2. We are a highly qualified team of 80 members (M.B.A., Degree Engineers). Our director has a rich professional experience in this field (since 1991).
3. We have 100% success rate in ISO series certifications for our clients from reputed certification bodies. We possess a branded image and are a leading name in the global market.
4. We also suggest continual improvement and cost reduction measures as well as provide highly informative training presentations and other products that give you payback within 2 months against our cost.
5. We have spent more than 60000 man-days (170 man-years) in the preparation of documents and training slides.

Certification Consultancy is committed for:

1. Personal involvement and commitment from the day one
2. Optimum charges
3. Professional approach
4. Hard work and updating the knowledge of team members
5. Strengthening clients by system establishment and providing best training materials in any areas of management to make their house in proper manner
6. Establishing strong internal control with the help of system and use of the latest management techniques.

Chapter-3.0 USER FUNCTION

3.1 Hardware and Software Requirements

A. Hardware:-

- Our document kit can be better performed with the help of P3 and above computers with a minimum of 10 GB hard disk space.
- For better visual impact of the PowerPoint slides, you may keep the setting of color image at high color.

B. Software used in the Document kit

- Documents are written in MS-Office 2003 and Windows XP programs. You are, therefore, required to have MS-Office 2003 or above versions with Windows XP

3.2 Features of the Document kit:-

- The kit contains all necessary documents as listed above and complies with the requirements of system standards.
- The documents are written in easy to understand English language.
- It will save much time in typing and preparing your documents at your own.
- The kit is user-friendly to adopt and easy to learn.
- The kit content is developed under the guidance of experienced experts.
- The kit provides a model of the Management system that is simple and free from excessive paperwork.
