### B. Documented information package:

Our documentation kit comprises sample documents required for ISO 20000-1:2018 certification as listed below. All documents are in MS Word / Excel format and you can edit them. You can make changes as per your company's needs and within few days your entire documents with all necessary system requirements can become ready. In the ISO 20000-1:2018, at few places, documented information are required. But for making the system better, we have provided many editable templates from which a user can select and make some minor changes to make own system. Now, ISO 20000-1:2018 standard does not require manual, procedures, etc. It requires two types of documented information as listed below:

1. Maintain documented information (Scope, SMS Manual, etc.)
2. Retain documented information (Forms / Templates)

Under the given directories, further files are provided in MS word document as per the details given below. All the documents are related to IT services industry.

### 1. SMS Manual (10 Chapters and 3 Annexure):

This is a sample copy of service management system manual which gives clause-wise details of how ISO 20000-1:2018 system is implemented. It covers the service management system, sample policy, objectives, scope, and organization structure as well as how each requirement from clause no. 4 to 10 of ISO 20000-1:2018 is implemented at macro level in the organization. The manual covers ISO 20000-1:2018 documents for tier-1 of documented information. It has total 10 chapters covering company profile, amendment sheet, index, and clause-wise details on how ISO 20000-1:2018 system is implemented in an organization.
