B. Documented Information Package:

Our documentation kit comprises sample documents required for ISO 9001:2026 Quality Management System implementation and certification. **All documents are in editable MS-Word / Excel format.** You can easily make changes in our sample documents as per your organization's needs and **within few days your entire documents** with all necessary system requirements can be made ready to use. In the ISO 9001:2026 Standard, documented information is required at few places. But for making the system better, we have provided many document templates from which a user can select documents to make own system with minor changes, as applicable. Though ISO 9001:2026 standard does not require manual, procedures, etc., it requires maintaining and/or retaining some documented information specified in various clauses of the standard. Therefore, this kit contains two types of documented information as listed below:

1. **Maintain documented information: QMS Manual, Policy, Procedures, etc.**
2. **Retain documented information: Records (Forms)- templates**

Under the main directories of this kit, further files are provided in MS Word/Excel document as per the details given below.

1. QMS Manual (10 Chapters and 4 Annexures):

This document is a sample copy of an organization's system manual which describes clause wise details on how ISO 9001:2026 Quality Management System is implemented. It covers the context of organization, scope, policy, objectives, and organization structure as well as macro level details of implementation of each requirement from clause no. 4 to 10 of ISO 9001:2026. This sample manual will also help you prepare company profile, amendment sheet, Quality policy statement and organization chart etc.
